Objective

To associate myself with an organization that provides a challenging job and an opportunity to prove my innovative skills through sincere and dedicated hard work.

Skills and Abilities

- Development of Enterprise level fully functional web applications
- Client side UI development (Responsive app, Angular)
- Server side development (.Net web API)
- Apply data structures for performance benefits
- Code cleanup to address memory leak and inefficient blocks
- Process automation to reduce the manual efforts
- Facilitate root cause analysis of system issues and identify ideas to improve system performance and impact availability
